Modular Approval Request Letter

FCC ID: WAP3063 Data: 2020-01-09

Gentlemen:

There's an EZ-BT WICED Module that would like to have your authorization as a Single Modular approval.

The specific product as below, EZ-BT WICED Module, with its designed features and specified description, meets special requirements

for full modular approval on FCC Public Notice 15.212 Released: December 25, 2017 by cross-reference list below.

Company	Cypress Semiconductor
Model Name	EZ-BT WICED Module
Model Number	CYBT-273063-02
	CYBT-263064-02
	CYBT-263065-02
FCC ID	WAP3063

Requirement of Public Notice 15.212	Reference to EZ-BT WICED Module.
The modular transmitter must have its own RF shielding.	The module have its own RF shielding. Please see external photo.pdf
1. The modular transmitter must have its own Kr shielding.	The module have its own Kr shielding. Please see external photo.put
2. The modular transmitter must have buffered modulation/data inputs.	The modular has buffered data inputs, it is integrated in chip
	CYW20819A1.Please see schematic.pdf
3. The modular transmitter must have its own power supply regulation.	All power lines derived from the host device are regulated before
	energizing other circuits internal to the CYW20819A1. Please see
	schematic.pdf
4. The modular transmitter must comply with the antenna requirements of	The EZ-BT WICED Module meets the FCC antenna requirements.
Section 15.203 and 15.204(c).	
5. The modular transmitter must be tested in a stand-alone configuration,	The EZ-BT WICED Module was tested in a stand-alone configuration
i.e., the module must not be inside another device during testing.	via a PCMCIA extender. Please see conducted set-up photo.pdf and
	spurious set-up.
6. The modular transmitter must be labeled with its own FCC ID number,	The label position of EZ-BT WICED Module is clearly indicated. If the
and, if the FCC ID is not visible when the module is installed inside another	FCC ID of the module cannot be seen when it is installed, then the
device, then the outside of the device into which the module is installed	host label must include the text: Contains FCC ID: WAP3063. Please
must also display a label referring to the enclosed module.	see the label.pdf
7. The modular transmitter must comply with any specific rule or operating	The EZ-BT WICED Module is compliant with all applicable FCC rules.
requirements applicable to the transmitter and the manufacturer must	Detail instructions are given in the Users Manual.
provide adequate instructions along with the module to explain any such	
requirements. A copy of these instructions must be included in the	
application for equipment authorization.	
8. The modular transmitter must comply with any applicable RF exposure	The EZ-BT WICED Module is approved to comply with the applicable
requirements. For example, FCC Rules in Sections 2.1091, 2.1093 and	RF exposure requirement, please see the MPE evaluation with 20cm
specific Sections of Part 15, including 15.319(i), 15.407(f), 15.253(f) and	as the distance restriction.
15.255(g), require that Unlicensed PCS, UNII and millimeter wave devices	
perform routine environmental evaluation for RF Exposure to demonstrate	
compliance. In addition, spread spectrum transmitters operating under	
Section 15.247 are required to address RF Exposure compliance in	
accordance with Section 15.247(b)(4).	

Company: Cypress Semiconductor

Thank you. Sincerely,
